**OFFICE OF THE SECRETARY OF STATE/DEPARTMENT OF STATE**  
**STRATEGIC PLAN**  
**FY 2027 – FY 2031**

**Department Vision**

The Secretary of State's Office will be a role model for government in our openness and accessibility to our data and remain responsive to our customers' needs and the citizens of Louisiana.

**Department Philosophy**

We can achieve excellence in public service when we draw upon the talents, leadership, and resources of our employees, always mindful that every effort must continue to earn and maintain the public's trust and confidence.

**Department Mission**

The mission of the Secretary of State's Office is to serve the public by meeting its legal responsibilities of collecting, securing, and communicating information that enhances commerce, ensures the integrity of Louisiana's elections, and preserves, presents, and makes accessible government information essential to Louisiana's operations and its recorded history.

**Goals**

- A.** To provide the Department with the leadership and management necessary to meet its program's objectives while performing the constitutional and statutory responsibilities of the Department of State.
- B.** To maintain an efficient and accurate election system and provide essential, comprehensive information that instills public confidence in the State's electoral process.
- C.** To provide the services, information, and facilities necessary to promote and support the State's governmental records management programs and identify, preserve, and make available governmental records and other archival materials of interest to the citizens of Louisiana.
- D.** To provide an effective presentation of history through the provision of a comprehensive system of thematic museums that enhances the public's understanding of the various influences and aspects of Louisiana's culture that have impacted its development.
- E.** To ensure compliance with the commercial filing laws at the lowest possible cost to taxpayers by maximizing the efficiency of document processing and information services.

## **Human Resource Policies Beneficial to Women and Families**

The Department of State (DOS) has established and maintained policies beneficial to women and families. Full-time employees may request a supervisor-approved schedule that may begin as early as 7:00 a.m. or end as late as 5:30 p.m. DOS may also permit deviations to the traditional 5-day, 40-hour work week. Approval to deviations is contingent upon supervisor recommendation and executive approval. The Department also supports Family and Medical Leave.

## **External Factors Affecting Performance**

The Department strives to meet its established goals by being creative and flexible in the development and revision of objectives and performance indicators during the planning process. The Department has been proactive in the development of software programs and applications to help us serve our customers in a way that is more efficient and convenient. Some external factors that may influence our ability to meet performance objectives are:

- legislative mandates;
- unscheduled elections;
- legislative funding at less than desired levels; and
- cost of keeping pace with rapidly changing information technology and experienced personnel.

## **Avoidance of Duplication of Effort**

The five programs within the Department have completely unique missions and mandates. There is no overlap of responsibility or function.

## **Maintenance of Agency Records**

Records are maintained in accordance with an approved Records Retention Schedule. Division directors or their designated representatives maintain performance data in their areas in either reports or a database. The central point for collection of this data for performance reporting resides in the Accounting Division. Performance files include current and previous Strategic Plans, current and previous Operational Plans, and input worksheets for Louisiana Performance Accountability System (LaPAS) quarterly reporting.

## **Strategic Planning Process**

Objectives in this strategic plan were initially developed with oversight from the Office of Planning and Budget (OPB). Copies of the current plan and supporting documents, current guidance from OPB, and instructions were provided to division directors and to supervisors in the Department who assist in planning. Division directors were asked to review current Objectives and Performance Indicators for relevance and were offered assistance in developing new performance indicators where required. Since there had been no outside requests for

changes and only minor changes were forthcoming from division directors, OPB and legislative staff were not included in the planning process.
